

**EXTRACT FROM  
COMMITTEE OF THE WHOLE MEETING  
CW#06-14 HELD APRIL 23, 2014**

**DELEGATIONS**

Paul Nolis, 49 Muirhead Crescent, addressed Committee regarding the servicing of the Muirhead Crescent area and referred to statements contained in the report written by staff which he had concerns with, such as the definition or lack of definition of a hazard in the legislation and that municipalities were not obligated to remove hazards to the moraine and its environment. He provided further comments relating to the Town's septic tank construction standards; By-law No. 128-04; documentation and legislation from the Minister of Municipal Affairs and Housing; and the high aquifer vulnerability for a portion of Muirhead Crescent. Mr. Nolis stated, in his opinion, the Town was obligated, legislated and expected to protect the environment and that the costs associated with this work be absorbed by the Town. He requested Council make the right decision for all taxpayers to protect the environment and install municipal services on Muirhead Crescent.

**17. Servicing of Muirhead Crescent Area – (SREIS.14.011)**

Moved by: Councillor Beros

That SREIS.14.011 regarding the servicing of Muirhead Crescent Area be received for information purposes.
