

## Attachment 3 – Richmond Hill Parkland Per Capita – SRPRS.19.022

Richmond Hill Parkland Per Capita			
	Population (people)	Total Parkland (ha)	Parkland per Capita (based on 1 ha/ 500 people)  (Total Parkland/ Population *1,000)
2011	185,545 (1)	305	1.64
2016	195,022 (1)	311	1.60
2017	203,756 (2)	315	1.55
2018	209,142 (2)	316	1.51
2019	214,528 (3)	327 (11 ha projected via development)	1.52
2020	219,914 (3)	329 (2 ha projected via development)	1.50
2021	231,400 (4)	341 (12 ha projected via development)	1.47
2026	239,100 (4)	341	1.43
2031	242,200 (4)	341	1.41

### Sources/Notes:

(1) Census data (Statistics Canada)

(2) Population projection (York Region, Town of Richmond Hill – the 2017 & 2018 population is derived as follows:

- The 2017 population is projected by: by i) applying the 2011 undercount estimate of 3.2% for York Region to the 2016 population, and ii) adding the 2017 projected population increase using the number of units built in 2017 (2,494 people).
- The 2018 population is projected by i) adding the 2017 projected population to the 2018 projected population increase, which equates to 5,386 people (calculated using the average units projected per year between 2019-20 by Watson & Associates in preparation of the Town's upcoming Development Charges By-law update, namely 1,200 high-density units, 2,000 medium density units, and 800 low-density units, multiplied by the Parkland Dedication By-law PPU's.)

(3) Population projection (Town of Richmond Hill – the 2019 and 2020 population projections were derived by adding the 2018 projected population to the 2019 projected population increase, which equates to 5,386 people (calculated using the average units projected per year between 2019-20 by Watson & Associates noted above, multiplied by the Parkland Dedication By-law PPU's.). The same methodology was used to derive the 2020 projected population.)
