Subject: DO1-18003 and DO2-18013

Good morning,

I would like to make the following comments about the proposed development at the above lands. I am unable to attend the public meeting.

I attended the information meeting hosted by Councillor Karen Cilevitz on March 7, 2019 These proposed buildings are too high, and it would be better to have one tower near Yonge Street and lower development on the remainder of the property. As it is , it will make for a problem with traffic flow, more congestion, and very dense population.

Green space is almost nonexistent.

I recommend staying with the towns official plan at the very least for this project.

Thank you.
