Subject: Town or City???

I have lived in the TOWN of Richmond Hill since the very early 1960's and I STRONGLY appose our council even thinking of changing the name of where I - and so many others - live. I have not only lived in this TOWN but I sincerely hope have contributed to the development of it as an educator and school principal, a member of the Richmond Hill Public Library Board for 22 years, ten of which as their President. We are NOT a city. We should stop these efforts to conform to what a handful of recent comers think of by making this change in an effort to make it seem a place where no one knows or cares about their neighbours. I DO CARE!

Sincerely,

Shelagh Harris
