Dear Ms. Dunn,

Re: D02-18028 + D03-18014 etc

Thank you for the info re the
Weldrick West Developments.

I realize one can't stop
"developments", however, as a
slowing down, 80 year old, may
I express some concerns.

In our unique community of
5 buildings (20-40-50-70
Baif + 5 Weldrick Rd W) we
will be affected by the new
developments. May I just
request that whoever the
developers are, could they be
please made cognizant of our
special community and that
many of us use canes, walkers
and some scooters. Many of
us are in the upper senior range
and are worried about the
non-ending construction on

(2)

Yonge St., particularly when the Doctors' offices are across Yonge St.

So far the construction workers on Yonge St. have been courteous and helpful.

I love Richmond Hill and would not like it ~~the~~ to change very much. Some of us might be old and grumpy, but a bit of a sense of humor is appreciated.

Thank you for your concern for us - and if you ever see Mr. Spatafore, give him my regards.

Thank you

Anne Fudin

P.S. No need

for a reply - I am not in the airy-fairy world - and don't intend to get into it. We love our postman!
