

Refer to 'Weldrick Wset Developmnt';Town File D02-18028 and D03-18014

Such a limited development like this would not be able to afford to save a value of the wooded area and water ways in the area.

The area should be developed more comprehensive scale and manner.

It should not be developed by private, small developer but the town, larger scale.

I can not understand why this kind of attempt be allowed repeatedly.
