Subject: Re: May14 public meeting

Hi,

1- I would like you to clarify to me what is a closed session item (17.1) mean for a public meeting?

2- I requested to speak during the public forum to raise my concerns in tomorrows meeting specifically to address my concern regarding original item # **14.1 (Municipal Governance Review by the Ministry)**

I never had any previous knowledge or information that the Ministry is collecting data and peoples' input to reform Municipal Governance.

The Town never informed public and obtained consultation and their opinion to day. The Town used another measure for quality of services in 2016 Town survey as a measure for approval (and gave itself a pat on the back) which is not the same. I will raise my concern of this issue and the possibility that other critical issues that the public is not made aware of and getting brushed under the carpet.

I appreciate if this would be included in tomorrows documentation as a written submission and circulated to all council members.

Regards,
