Property for which Application is Being Made

D12-07037

Designation By-law Number

Description of Work:

(Attach separate sheet, if necessary. Include drawings, sketches and or photographs if applicable)

I live in a replica of a Heritage home. The soffit and fascia of the house was constructed out of very poor quality wood. The wood is already getting damage with the elements of harsh weather. The ventilation is poor.

I want to cap the soffit and fascia with aluminum all around the house. The following work will be done to preserve and prolong the life of the soffit, fascia and roof.

1- Replace all rotten or dry wood

2- Install new panel heavy gauge vented soffit custom bend heavy fascia.

3- removing and replacing eveastrough - with long pipes all around the house.

4- Painting wood decoration in front of the house.

5- Caping complete porche on aluminum.

Estimated Cost of Proposed Work (please attach at least two (2) verifiable quotes for work to be undertaken):

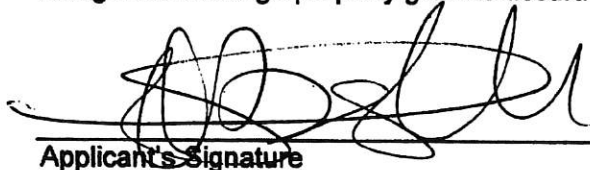

\$7200.00 +13% = \$8,136.00

Amount of Grant Being Requested:

\$4,068.00

(Please note that only one grant per project per year is permitted under the Heritage Grant Program)

I certify that to the best of my knowledge the information provided in this application for a designated heritage property grant is accurate and complete.

Subject: Aluminum work around exterior of the house

G.T.A. Aluminum

Estimate to 33 Betony Dr. Richmond Hill.

Soffit fascia, freezeboard, corner boxes and coverings of the front porch, porch beam and change small square down pipes to large square 3x3.

This price for all that you see here is 8,250\$ plus HST.

Price for cash would be 8,000\$

If you do not decide to go with changing your pipes to large square then price would 7,250\$ plus HST
