Subject: Single Plastic use

Good afternoon,

I would like to express my support for David's motion to reduce single plastic use in Richmond Hill. This is a very important issue and, as a long time RH resident, I would participate as a speaking delegate.

I have communicated to David in multiple occasions on how GTA and RH have a great opportunity to reduce plastic pollution and to catch up with the rest of the world (see article on Africa below). We need to take immediate action as a community.

Thank you David

Roberto Puebla
