Subject: Council meeting time change

I recently found out that this council is looking at moving future council meetings pertinently to a 9:30 am slot. WHY?? This is a time that is difficult for my family and others that have work commitments to attend during that time. I feel that the constitutes who voted you in, pay your wages and your newly increased account expense account are not being considered in this decision. A concern that many have is why this council is making it difficult for residents to attend these meetings? Do they not want the residents to see what is happening in these meetings, what is being voted on in these meetings. I find is very self serving, selfish, and not in the best interest for your constituents. I ask you to take the residence into consideration and have the meetings in the evening when residence's can attend. I am very concerned and disappointment that this council would consider leaving a large portion of residence out.
