I am resending my email below on april 6 to you and Kevin Kwan to support David West's motion to have the KDA plan for yonge and bernard be postponed until the city have corrected the alleged mistake made to promote the high density development in the area.

Kelvin:

I came across the following email exchanges between city staff and John Li. Apparently you are stating the city needs to bull doze the mentioned KDA plan through while knowing there is a mistake made on the proposal. I do not think that is the professional way of handling such matter.

You mentioned that we are in an extenuating situation which I totally agree. I guess that is why the city and province are declaring a state of emergency. Since we are in a state of emergency, I cannot see why we cannot defer, or asked LPAT to defer the hearing. Decisions must be made according to the facts, not mistakes. Even in a pandemic.

Your assistance is much appreciated.
