1-All windows in the house except the basement are wood. Very poor quality wood. The house is very drafty as the windows expand and contract drastically.

2-There is mold from the condensation that is created. See pictures attach.

3-The paint is all coming out from the outside - and it is more expensive to get them painted than to replace them.

3-Kitchen sliding Door - Drafty - paint falling off.

4- Front Door - Wood continues to crack every year has to be painted and the cracks refill- Expands and Contracts

Big Draft - the house is always cold - my Gas bill is expensive due to the poor quality of the windows and doors.

- I want to change All windows and doors main and 2nd floor. except my daughter's room - the windows faces the of the house - too expensive to change now. The window does not open- they will cap it outside with Aluminum, and calking to stop the draft for now.
