1.0 INTRODUCTION to DEVELOPMENT SITE

This amended Cultural Heritage Impact Assessment (CHIA) has been prepared for 1641031 Ontario Limited to facilitate the proposed redevelopment of 35 Wright Street in Richmond Hill. The redevelopment proposal consists of demolishing the existing residence and replacing it with a 6-storey + mechanical floor office building. The existing structure at 35 Wright Street is listed on the Town’s *Inventory of Buildings of Architectural and Historical Importance*, triggering the requirement for a CHIA. The Town of Richmond Hill *Cultural Heritage Impact Assessment Terms of Reference* are employed in the conduct of this CHIA for the property.¹

1.1 Location / context

Figure 1 is a Property Index Map showing the location of 35 Wright Street (in green) on the north side of the street, west of Yonge Street in downtown Richmond Hill.

Figure 2 is an aerial photograph of the area in which the subject property is located. Downtown shopping, restaurants, Seneca College campus and the Performing Arts Centre are at Yonge and Wright Streets. The subject property is partially surrounded by a secondary school property. A mostly single-family neighbourhood is to the west of Hall Street. Mixed uses; a hospice, a church, and condominium residences are to the south.

Figure 3 is a close-up aerial photograph showing the neighbouring properties, the designated, former Richmond Hill High School (now École Secondaire Norval-Morrisseau) on the west and north boundaries, 31 Wright Street, a former residence (now accountants offices), and a shopping plaza on the east, and Hill House Hospice, Baptist Church, and the parking lot for Seneca College and the Richmond Hill Performing Arts Centre across the street.

Toronto, ON M3H 2K4

1.3 Description of the property

35 Wright Street is a *circa* 1923 former single family, 1 ½-storey residence on a 736 m² (0.07 ha) lot (17.68 m x 41.63 m). A later addition is found at the rear, flanked on the east by a raised wood deck (Figure 8). The house is set back from the street approximately 9 metres with a +/- 2 metre minimum west side yard and a +/- 5 metre minimum east side yard. The rear yard is approximately 12 metres deep (Figure 6). Two small steel sheds are located on the east side of the house (Figure 10). A Spirea hedge borders the front property line (Figure 8). An Eastern White Cedar hedge and board-on-board fence defines the westerly property boundary (Figure 11) and a board fence/chain link fence the eastern property boundary. Mature Norway Maple trees line the eastern property line. The rear property boundary is defined by mature deciduous trees as well.

1.4 The cultural heritage resource

The residence at 35 Wright Street is the cultural heritage resource on the property. It is listed in the Town's *Inventory of Buildings of Architectural and Historical Importance* with the reason for listing being "A"².

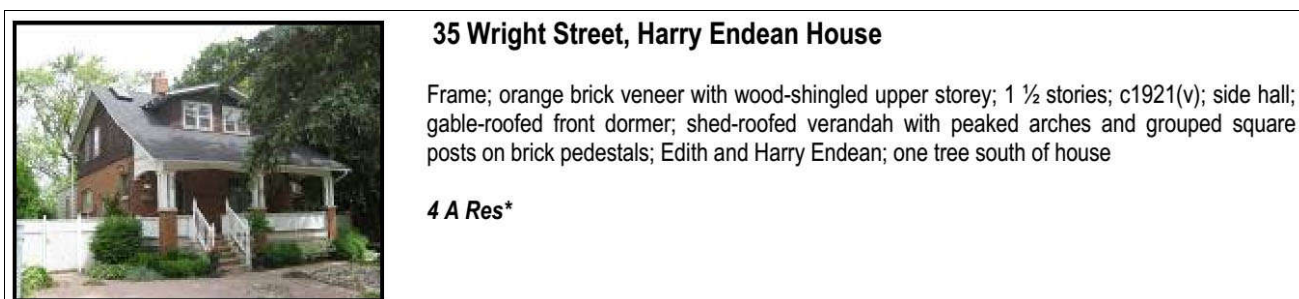

Figure 4 from: *Inventory of Buildings of Architectural and Historical Importance* - Heritage Richmond Hill, revised 2008

Figure 5

from: heritage inventory, page 95

² Refers to the reason for including the building in the *Inventory*. "A" is for architectural, "C" for contextual, and "H" for historical importance. "Most buildings are listed as being of some architectural merit, if only in so far as the architecture suggests possible age." *Inventory of Buildings of Architectural and Historical Importance*

Figure 6 survey, existing conditions - from: Vladimir Dosen Surveying, September 22, 2015

The property is not listed in Parks Canada's *National Historic Sites of Canada*, or the *Canadian Register of Historic Places*. The building is described as a gable-roofed, 1½ storey frame house with an orange brick veneer lower storey and wood-shingled upper storey. It has a gable-roofed front dormer with two paired windows (Figure 11); a shed-roofed verandah with peaked arches and grouped square posts on brick pedestals (Figure 13). Further, the windows are 6/1 and appear to be original to the house (Figure 14). Window configurations include numerous paired windows, single windows, and one triple window (Figure 15). Wood storm windows grace the lower floor windows with aluminum storms on the 2nd storey. Soldier course brick lintels head lower storey windows (Figure 17). Lower storey sills are rusticated precast concrete (Figure 17). The glazed front door appears to be original and is protected by a Victorian-style storm door (Figure 16). Soffits and verandah ceiling are tongue and groove wood construction (Figure 13). The asphalt-shingled roof sports a skylight on the south face. There is one central brick chimney with two flues. The house rests on a poured concrete foundation (Figure 18). A west side entrance is a half level below the main floor (Figure 15). A later frame, horizontal wood-sided addition is to the rear (Figure 19).

Figure 7

front (south) facade

Typical of the Arts and Crafts style of the 1920s and 1930s, the house is not rare, nor unique, nor a representative or early example of a style, type, expression, material and construction method. It is one of at least fourteen Arts and Crafts houses, including nine Arts and Crafts bungalows listed in the Town's Register, five of which appear to be almost identical (Appendix 2). No structural analysis or condition assessment was undertaken for this report other than a visual inspection; the building appears to be in good condition.

1.5 Surrounding Context

This block of Wright Street is an eclectic mix of different land uses, varying heights and massing of buildings, setbacks and parking lots (Figures 20 - 26).

Figure 20

immediate neighbourhood - *Town of Richmond Hill Maps*

Figure 21

hospice and Baptist Church across the street from 31 Wright Street

Figure 26

École Secondaire Norval-Morrissette (former Richmond Hill High School)

The context for 35 Wright Street has been altered dramatically since it was constructed *circa* 1923. It is not important in defining, maintaining or supporting the character of the neighbourhood

2.0 BACKGROUND RESEARCH and ANALYSIS

The earliest Land Registry Office record for the sale of Lots 8 and 9 is the 8th of February 1885 by P. S. Gibson. Prior to that, this area of the Town of Richmond Hill had not been subdivided as can be seen in this 1878 map of the Village of Richmond Hill (Figure 27).

Figure 27 Village of Richmond Hill (subject property marked by blue asterisk) from: *Illustrated Historical Atlas of the County of York and the Township of West Gwillimbury & Town of Bradford in the County of Simcoe, Ont.*, Toronto : Miles & Co., 1878.

Matthew McNair purchased Lots 8 and 9, Registered Plan 647 in 1885 and sold both to Isaac Walder for \$800 in 1905. Walder subdivided both lots and sold the portion of Lot 8 that is now 35 Wright Street in July of 1920 to Edith Littlefield (later Endean). In 1922 Walder sold Lot 9 to Ralph Langstaff, who in turn sold a portion to Harry Endean (Edith's husband) in 1923 for \$120. Edith obtained two mortgages totalling \$3,800 in the spring of 1921, with which the house was built, probably in 1923. The mortgages were discharged in 1939. Harry Endean worked locally with other family members in the nursery business. He was a member of the Rose Society of Ontario and a flower auctioneer at the 1938 Annual Rose Show³. He was also a member of the Flower Committee for Toronto's Centennial celebration in 1934⁴. The Endean family owned numerous homes in the town, including at least four similar Arts and Crafts homes of the era (Appendix 2). Endean Nurseries was one of a number of horticultural enterprises in the Town in the first part of the 20th century.

³ *Year Book of The Rose Society of Ontario 1913-1939*, pp. 13 & 14

⁴ *Toronto's 100 Years 1834-1934: The Official Centennial Book*, Jesse Edgar Middleton, 1934

The active horticultural scene at Richmond Hill attracted other entrepreneurs, who opened greenhouse and nursery operations throughout the 1910s and 1920s: Henry Arnold and his Bedford Park Floral Company, located north of the Dunlop greenhouses; the Endean Brothers and their nursery business; and Walter Watson, H. Davis, and other independent operators. Almost overnight, the horticultural industry made the village famous and became Richmond Hill's major employer.⁵

In 1941, the Endeans sold the property to John H. and Hilary D. Curzon. The property changed hands again in 1943 to Albert W. Chisholm and then again in 1947 to Florence G. Irwin who lived in the house for 46 years. Susan Smit bought the property in 1993 and sold it in 2014 to Zinyat Ozcan and Gunay Quliyeva. Nine months later the property was sold to Svitlana Kotler, whereupon it was transferred to Svitlana Kotler and Olga Boldareva, then back to Svitlana Kotler, then to Svitlana and Igor Kotler, the current owners, all in 2015.

Neither the original homeowner, nor any of the subsequent residents appears to have been of historical significance to the community. Census data, Archives of Ontario, Library and Archives Canada, business directories, Canadian Cemetery Records, and the Richmond Hill Public Library were searched for information.

3.0 STATEMENT of SIGNIFICANCE

Section 2 of the *Planning Act* indicates that Town Council shall have regard to matters of Provincial interest such as the conservation of features of significant architectural, cultural, historical, archaeological or scientific interest. In addition, Section 3 of the *Planning Act* requires that decisions of Council shall be consistent with the *Provincial Policy Statement (PPS)*. Policy 2.6.1 of the *PPS* requires that significant built heritage resources and significant cultural heritage landscapes shall be conserved.⁶

The *PPS* defines “built heritage resource” as a building, structure, monument, installation or any manufactured remnant that **contributes to a property’s cultural heritage value or interest as identified by a community**, including an Aboriginal community. Built heritage resources are generally located on property that has been designated under Parts IV or V of the *Ontario Heritage Act*, or included on local, provincial and/or federal registers. The term “significant” means resources **valued for the important contribution they make to our understanding of the history of a place, an event, or a people**. “Conserved” means the **identification, protection, use and/or management of cultural heritage and archaeological resources in such a way that their heritage values, attributes and integrity are retained under the *Ontario Heritage Act***. This may be achieved by the implementation of recommendations set out in a conservation plan, archaeological assessment, and/or heritage impact assessment.

The question that requires an answer is whether or not the subject property is worthy of heritage designation in

⁵ *Early Days in Richmond Hill, A History of the Community to 1930*, Chapter 11, Robert M. Stamp

⁶ *Provincial Policy Statement (PPS, 2014) Cultural Heritage and Archaeology Policies 2.6, InfoSheet #5, Heritage Impact Assessments and Conservation Plans*, Winter 2006

accordance with the heritage designation criteria per Regulation 9/06, *Ontario Heritage Act*.

Ontario Regulation 9/06 states: *A property may be designated under section 29 of the Act if it meets one or more of the following criteria for determining whether it is of cultural heritage value or interest:*

1. *The property has design value or physical value because it,*
 - *is a rare, unique, representative or early example of a style, type, expression, material or construction method,*
 - *displays a high degree of craftsmanship or artistic merit, or*
 - *demonstrates a high degree of technical or scientific achievement.*
- *The property has historical value or associative value because it,*
 - *has direct associations with a theme, event, belief, person, activity, organization or institution that is significant to a community,*
 - *yields, or has the potential to yield, information that contributes to an understanding of a community or culture, or*
 - *demonstrates or reflects the work or ideas of an architect, artist, builder, designer or theorist who is significant to a community.*
- *The property has contextual value because it,*
 - *is important in defining, maintaining or supporting the character of an area,*
 - *is physically, functionally, visually or historically linked to its surroundings, or*
 - *is a landmark.*

The house is listed on the Town of Richmond Hill's *Inventory of Buildings of Architectural and Historical Importance Properties*.

The property does not meet the criteria for heritage designation under the Ontario Regulation 9/06, *Ontario Heritage Act*.

It does not have *design value or physical value*. The building is not rare, nor unique, nor a representative or early example of a style, type, expression, material and construction method; it does not display a high degree of craftsmanship; and it does not demonstrate a high degree of technical or scientific achievement.

It does not have *historical value or associative value*. The building has no direct association with a theme, event, belief, person, activity, organization or institution that is significant to the community. The building does not yield, nor has the potential to yield, information that contributes to an understanding of a community or culture. It does not demonstrate or reflect the work or ideas of an architect, artist, builder, designer or theorist who is significant to the community.

It is not important in defining, maintaining or supporting the character of the neighbourhood; the character of this block of Wright Street has been greatly altered over time and is an eclectic mix of various ages of institutional, commercial, and residential uses.

4.0 DEVELOPMENT PROPOSAL

The proposal is to demolish the building and replace it with a 6-storey + mechanical floor office building (Figures 28 - 30). Proposed sideyards are 600 / 659 mm (+/- 2'). Front yard setback is 10,994 mm (36'). Surface parking is at the front as in the existing situation; the remainder of the parking is under cover of the building (Figure 28).

In a larger context, a conceptual plan dealing with the redevelopment of both 35 and 31 Wright Street has been prepared (Figures 31 and 32). Provisions in the Official Plan and the evolving Secondary Plan for the area allow/propose between 2 and 2.5 times coverage. The planning justification report for this project provides further explanation and rationale for higher intensity. The concept for both lots retains the heritage structure at 31 Wright Street and integrates it with a future building.

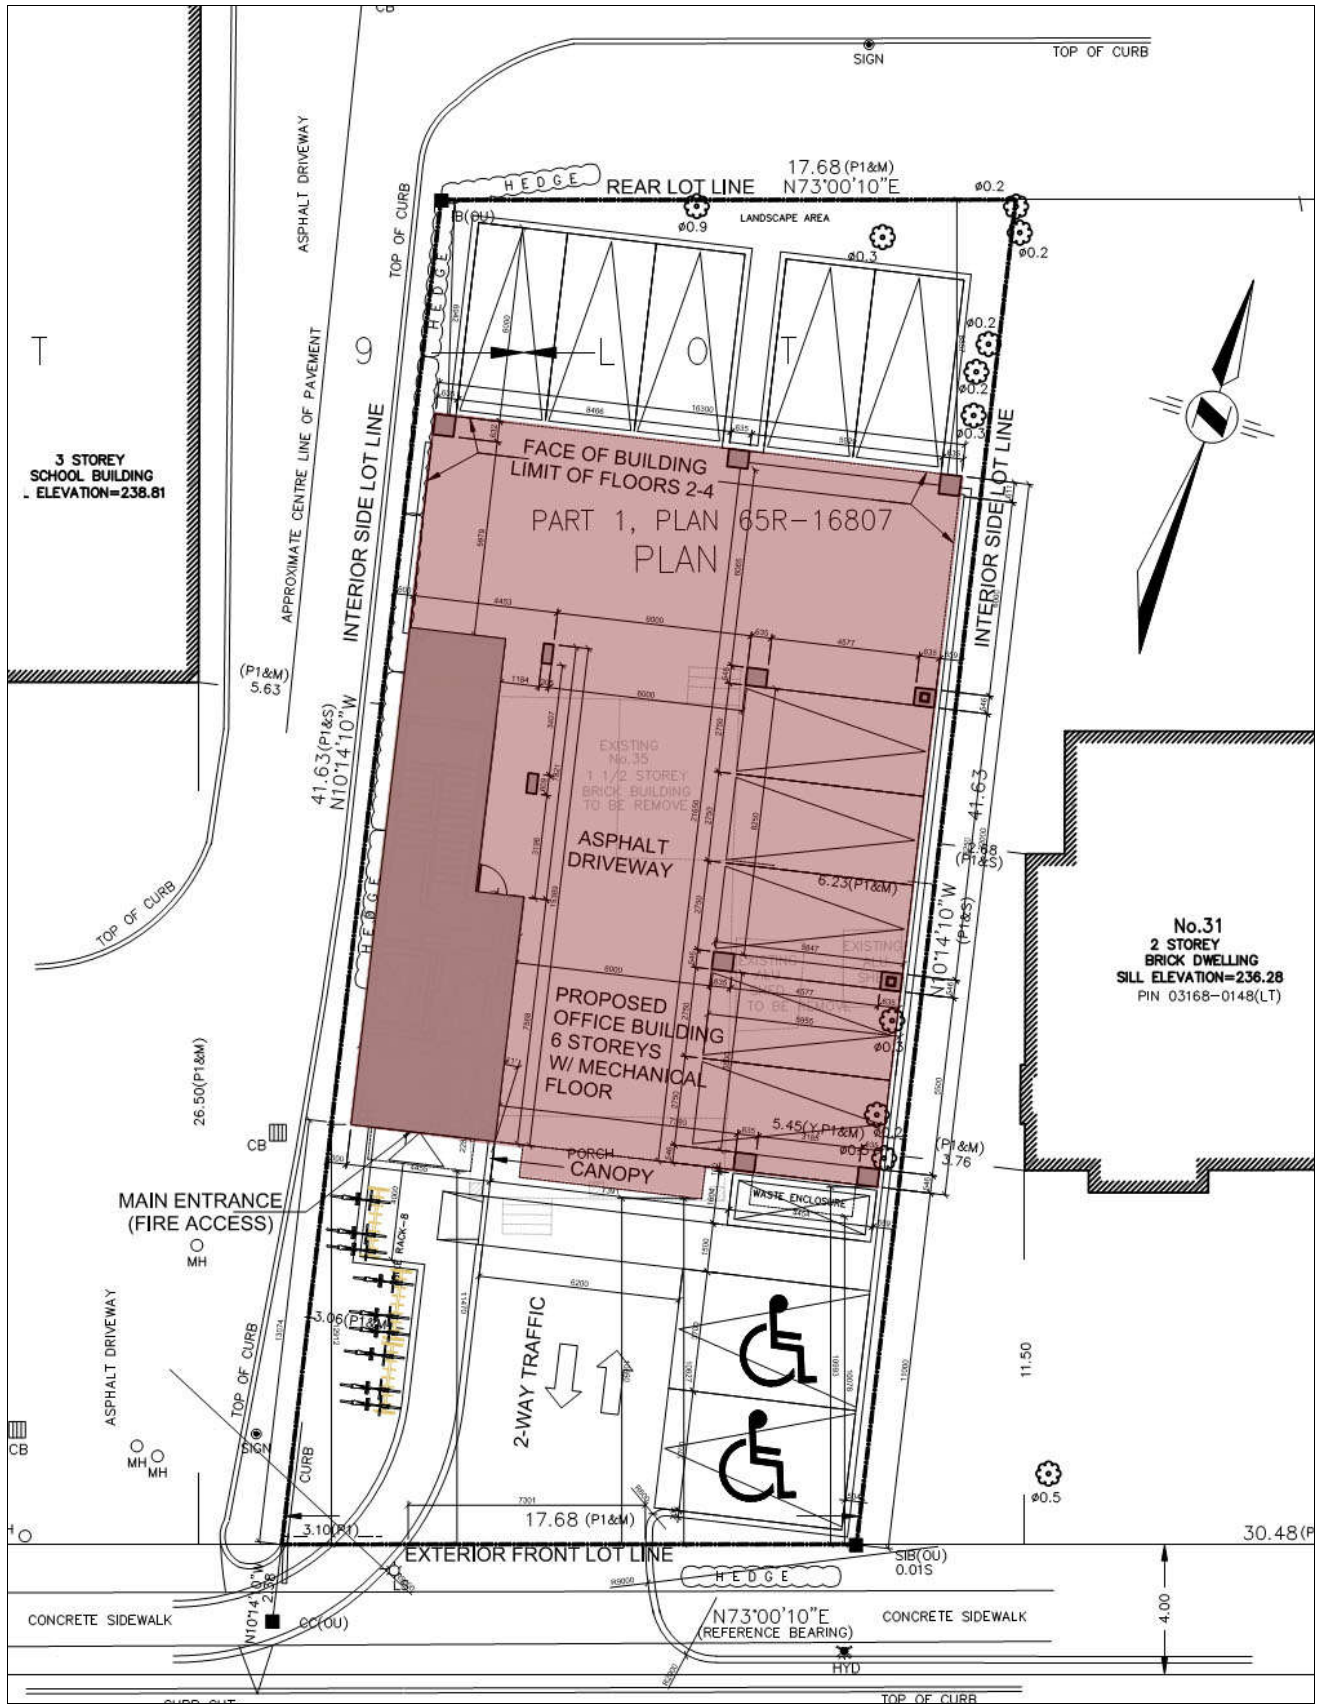

Figure 28

Site Plan - after: I. V. Tikhomirova Architect, March 22, 2016

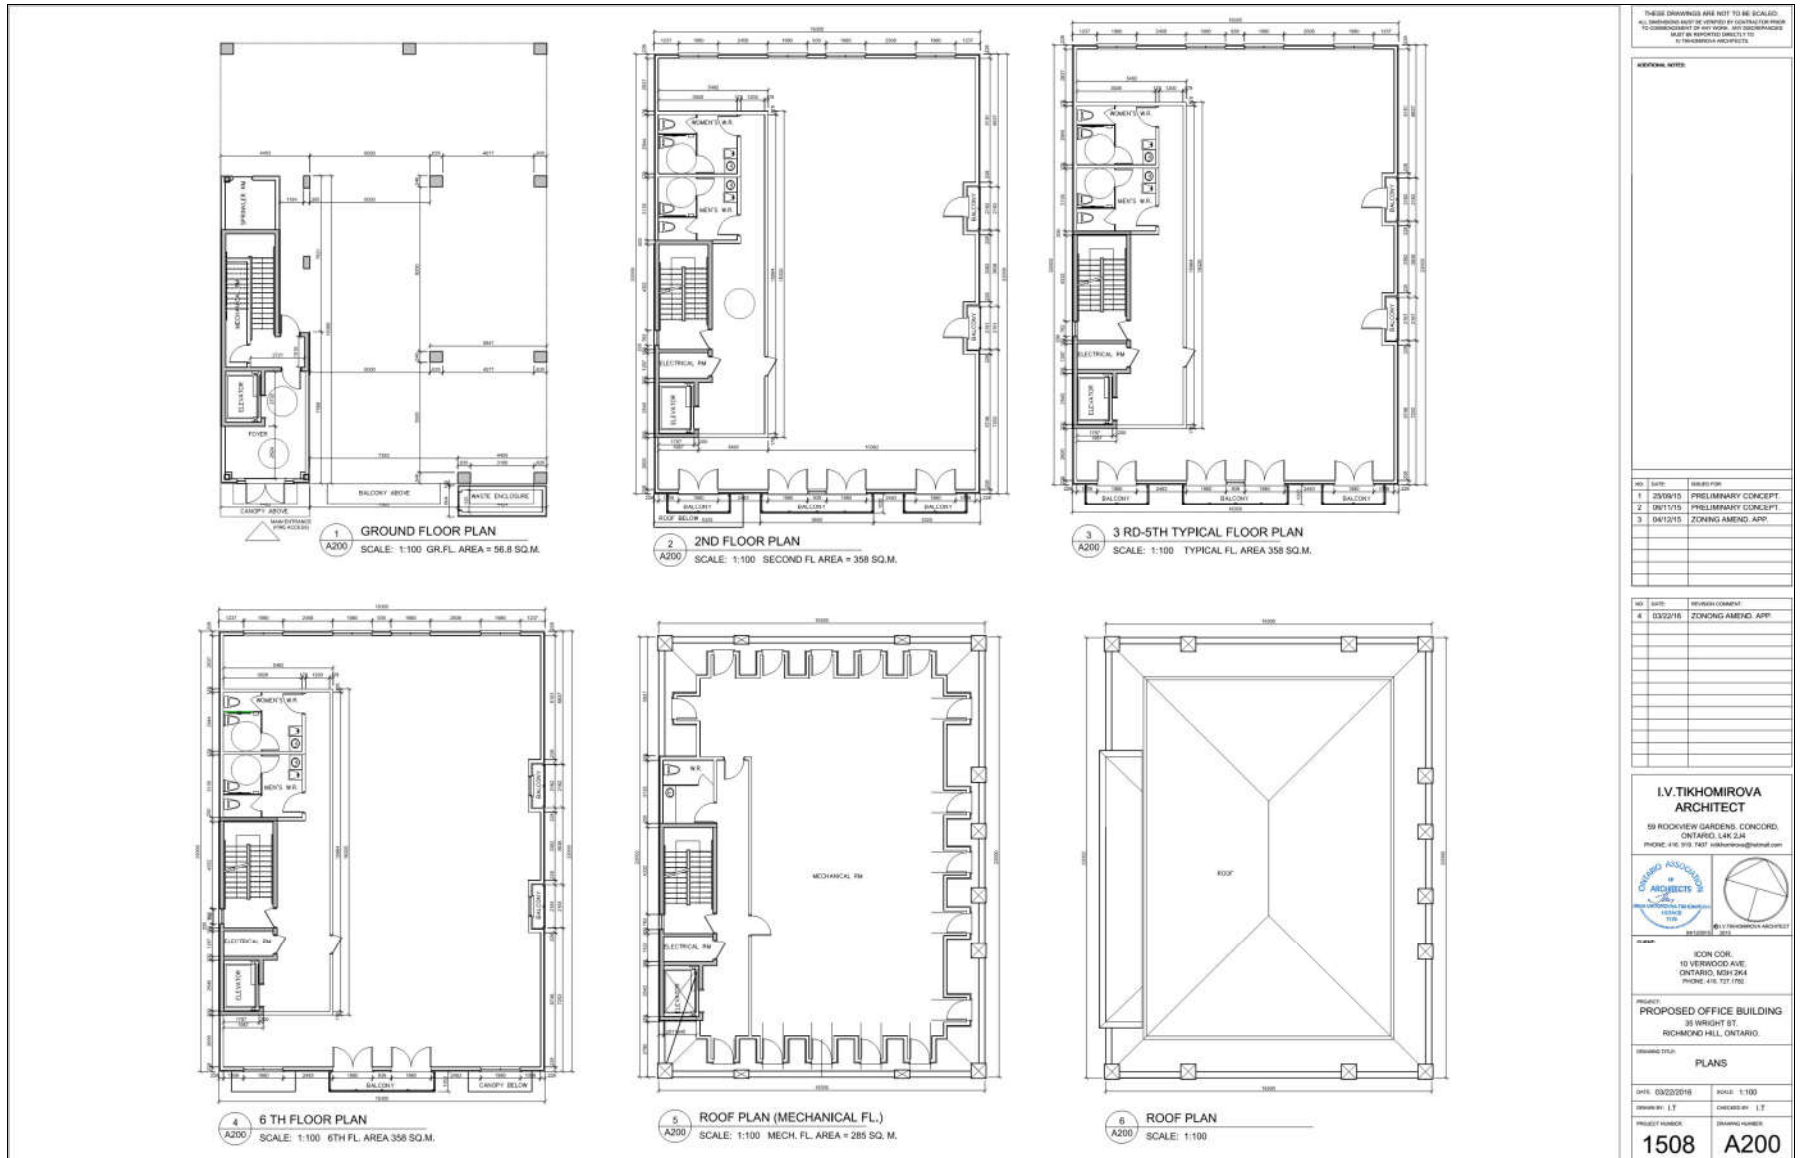

Figure 29

floor plans - after: I. V. Tikhomirova Architect, March 22, 2016

Cladding is a combination of marble-finish stucco and brick with stucco mouldings and a metal roof. Aluminum windows and doors and pre-finished metal railings are proposed.

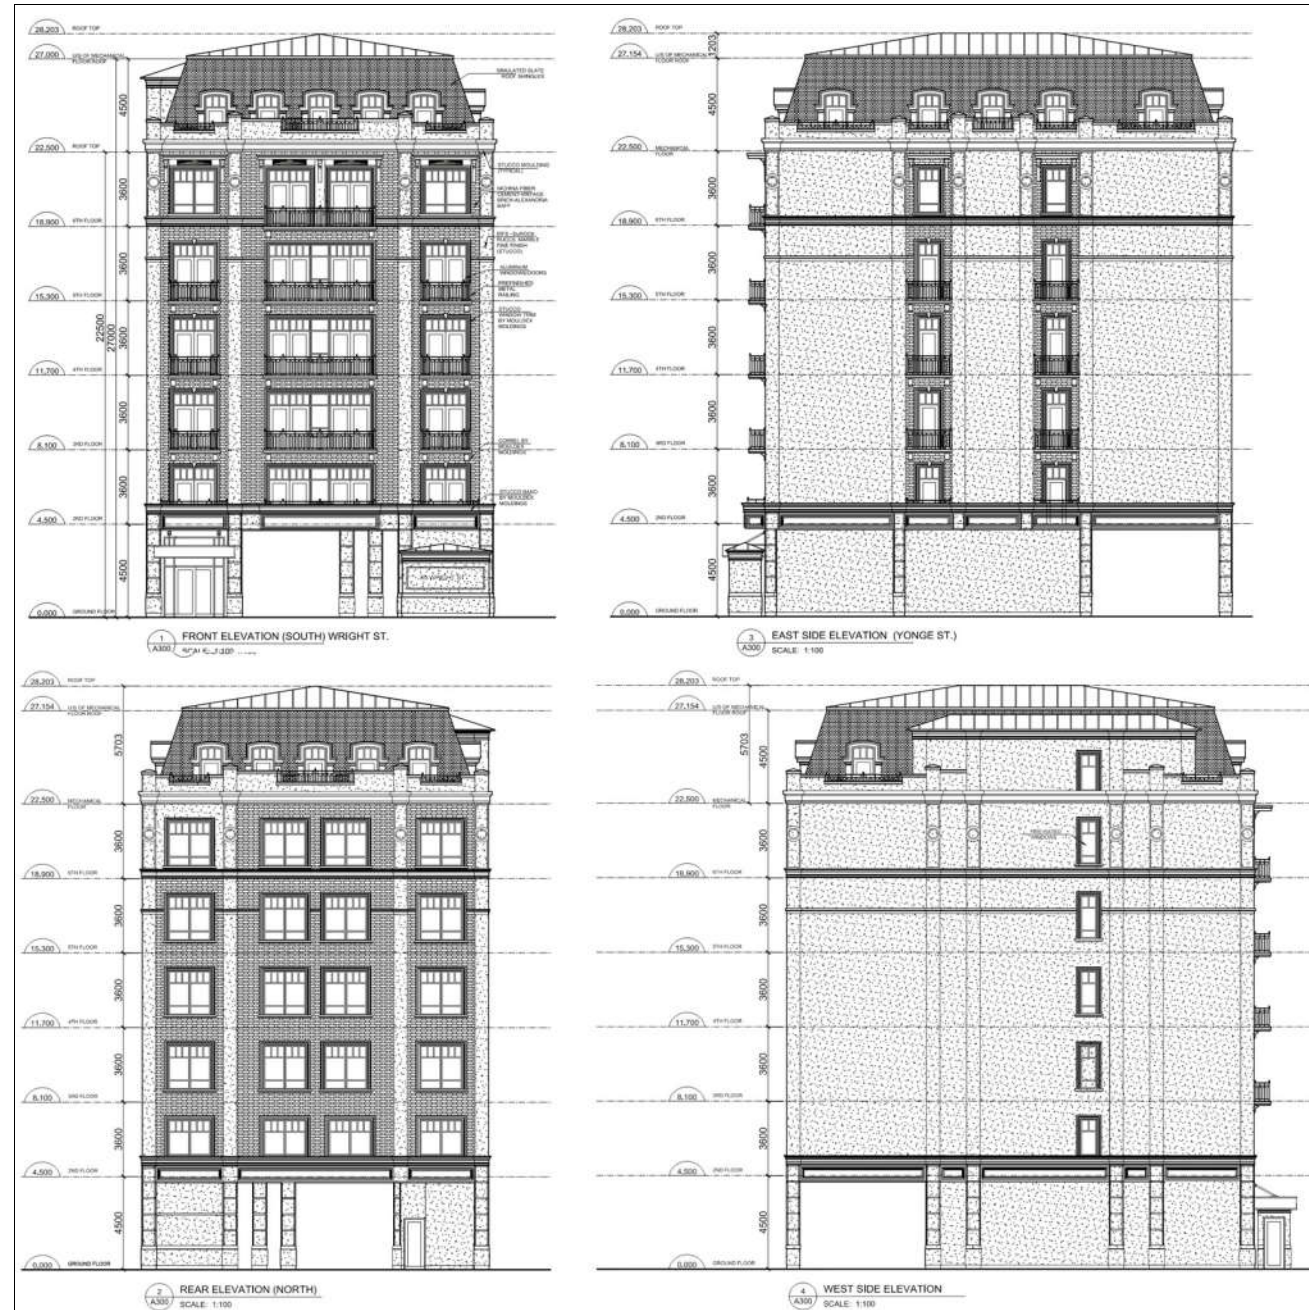

Figure 30

elevations - after: I. V. Tikhomirova Architect, March 22, 2016

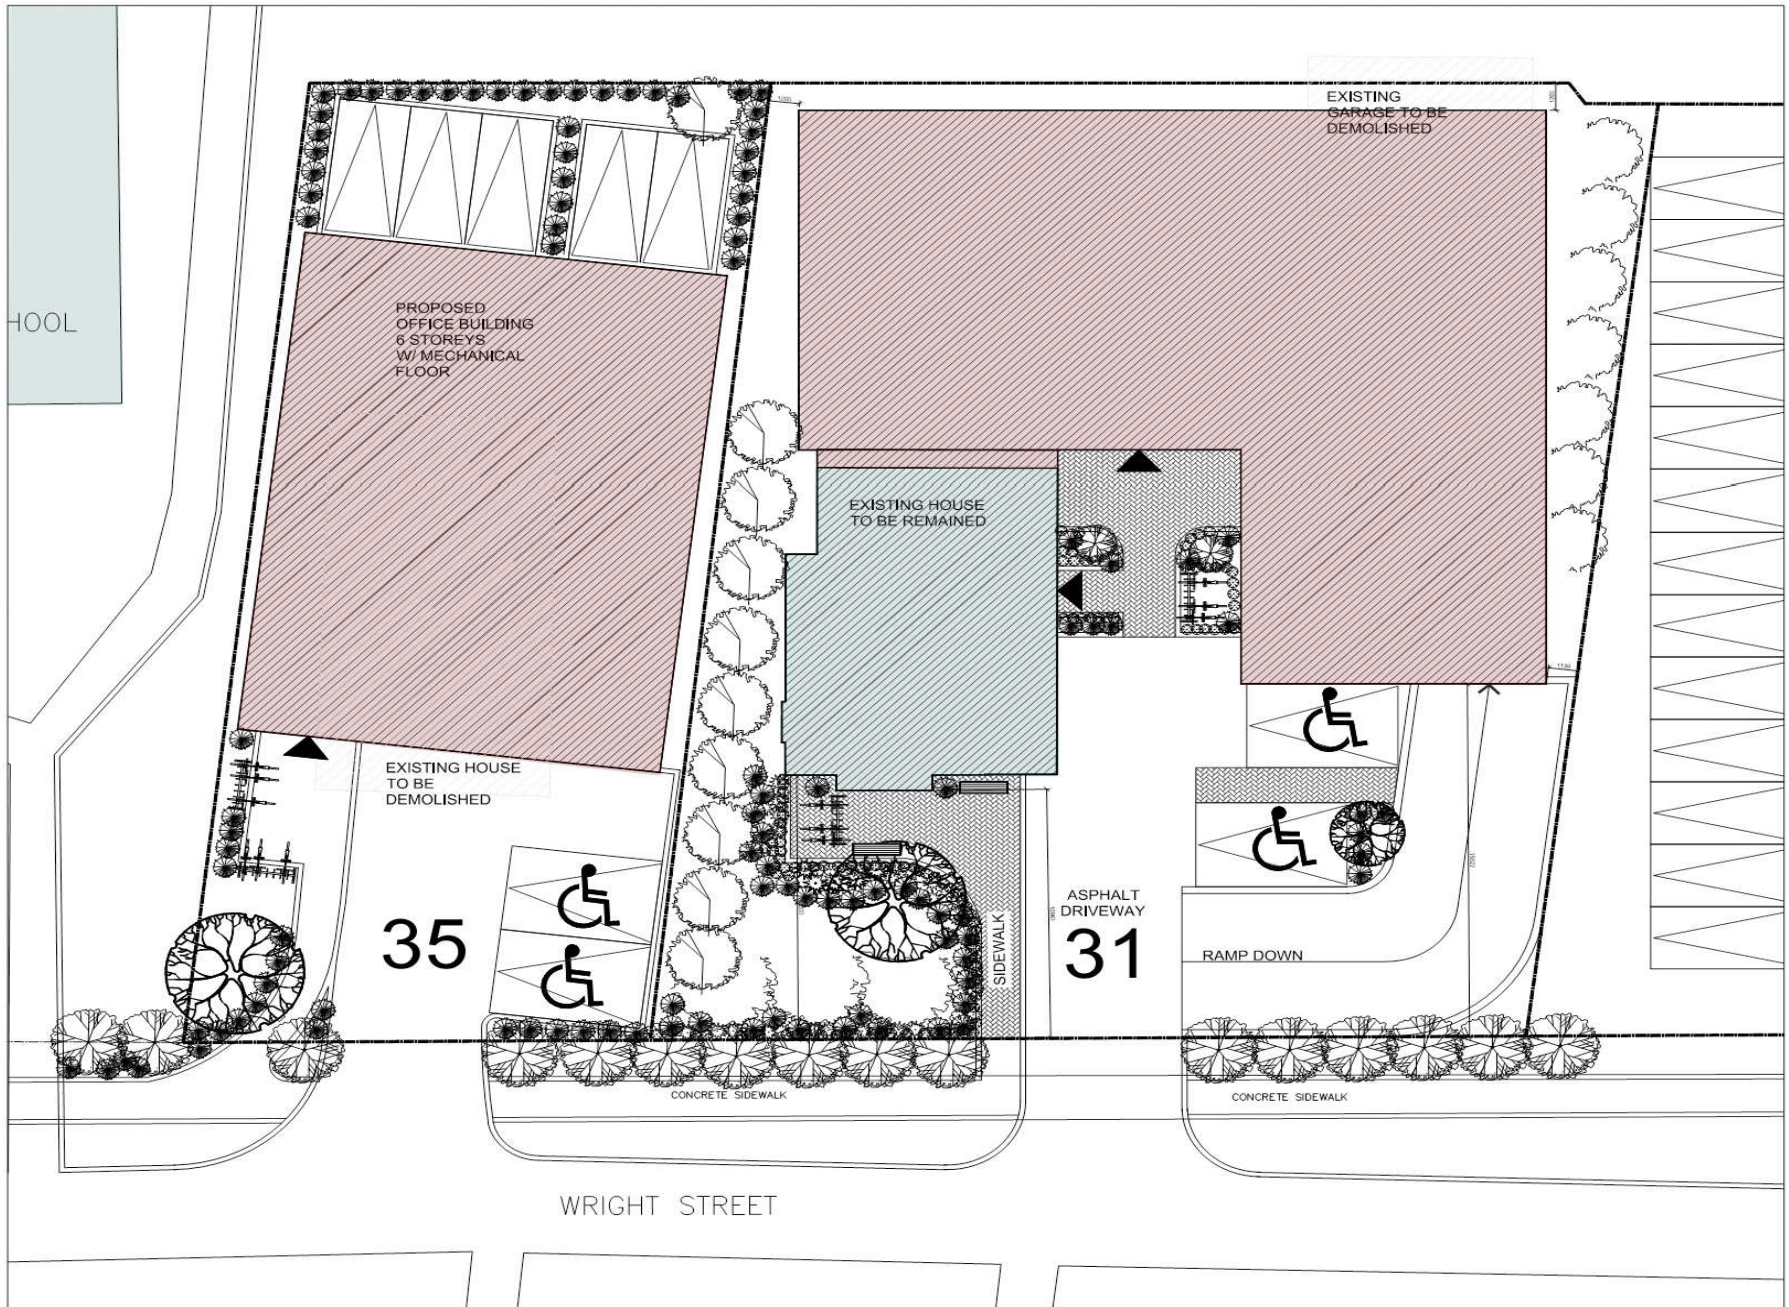

Figure 31

Conceptual Site Plan, 31 & 35 Wright Street - after: I. V. Tikhomirova Architect, June 13, 2016

Figure 32

Streetscape Concept, 31 & 35 Wright Street - after: *I. V. Tikhomirova Architect*, June 13, 2016

The proposed building at 35 Wright Street is four-storeys taller than the adjacent school and 5-storeys taller than adjacent 31 Wright Street. Buildings across the street range from the single-storey Hospice to a church with a tall steeple to the 5-storey Performing Arts Centre.

Figure 33

shadow study - after: *I. V. Tikhomirova Architect*, March 22, 2016

A shadow study prepared by the architect (Figure 33) shows the impact on the adjacent heritage designated school is minimal, with only the blank wall of the far easterly wing being affected mid-morning throughout the year. The impact on adjacent, heritage listed 31 Wright Street is greater, putting the building in shadow from mid-afternoon until evening throughout the year.

5.0 IMPACT of DEVELOPMENT

Potential impacts and an assessment of the proposed development follows.

<i>Potential Negative Impact</i>	<i>Assessment</i>
<ul style="list-style-type: none"> • Destruction of any, or part of any, significant heritage attributes or features 	no impact - building is not a significant cultural heritage resource
<ul style="list-style-type: none"> • Removal of natural heritage features, including trees 	minimal impact - trees to be removed are Norway Maple
<ul style="list-style-type: none"> • Alteration that is not sympathetic, or is incompatible, with the historic fabric and appearance 	not applicable
<ul style="list-style-type: none"> • Shadows created that alter the appearance of a heritage attribute or change the viability of an associated natural feature, or plantings, such as a garden 	late afternoon shadows on adjacent 31 Wright Street will be lengthened - impact expected
<ul style="list-style-type: none"> • Isolation of a heritage attribute from its surrounding environment, context or a significant relationship 	not applicable
<ul style="list-style-type: none"> • Direct or indirect obstruction of significant views or vistas within, from, or of built and natural features 	front yard setback similar to existing - 4.4 m separation of facades of 31 & 35 Wright Street retains existing view of 31 Wright Street
<ul style="list-style-type: none"> • A change in land use where the change in use negates the property's cultural heritage value 	no impact
<ul style="list-style-type: none"> • Land disturbances such as change in grade that alter soils, and drainage patterns that adversely affect cultural heritage resources 	no impact

The significant heritage resource (former Richmond Hill High School) is not materially affected by the proposed development. 31 Wright Street is somewhat affected by virtue of the lengthy time it is in shadow from the proposed building. Because it is an office building, the impact is not as substantial.

6.0 CONSIDERED ALTERNATIVES and MITIGATION STRATEGIES

The mass of the proposed building is broken up with an interesting fenestration, materials, and glazing that addresses the street in a positive way. The proposed building is taller than its immediate neighbours, and taller than buildings within the block, and in sight. Intensification plans for the planning area suggest that the site could redevelop at much higher densities than currently exist. The only negative impact on a significant cultural heritage resource appears to be the shadow cast by the proposed building. Land use (office) of 31 Wright Street would mitigate this impact to a large extent.

7.0 CONSERVATION STRATEGY

Removal of the property at 35 Wright is being proposed. Site specific design guidelines recommended include:

- a landscape plan that addresses the neighbouring property at 31 Wright Street in a complementary fashion;
- low level screening of the surface parking spaces in the front yard, *i.e.* hedging and/or fencing.

This amended cultural heritage resource impact assessment is respectfully submitted by:
