Subject: Fwd: 38 and 43-storey towers at Yonge and 16th

Hello,

I live just north of Yonge and 16th and think this area is already too dense for the current infrastructure. 43 stories is such an overkill, do we want downtown level density with much fewer transit options?

I'm not opposing condos, but 35+ storeys is way too high. Keep it at 15 storeys.

Concerned and would like to voice my disapproval.
