Summary of Projects Funding Request

Schedule A

1. **Program Director and Overhead Costs:**

The Program Director performs all administrative work. Some of the tasks and responsibilities include: coordinate and review funding applications for the Assistive Devices Program; coordinate the Subsidized Gym Membership Program; correspond with employees of the City of Richmond Hill, and outside applicants including Occupational Therapists; preparation of applications for submission to various foundations and other corporations; all accounting duties; updating RH Mobility’s social media platform; and the sourcing and coordination of fundraising initiatives. Overhead costs include office rental at 9225 Leslie Street, Unit 221, Richmond Hill, ON, L4B 3H6, administration, stationery and supply costs.

   Request: $20,000.00

2. **Assistive Devices Program:**

This program works with Richmond Hill residents whom have a permanent physical disability and are in financial need. The program helps with the financial burden of their much-needed devices such as wheelchairs, walkers, bathroom equipment etc. to help improve the quality of their everyday lives. This equipment allows for greater access to the community, providing relief to a parent in aiding with the mobility of their child, and for some it may offer them a choice of living independently.

   Request: $10,000.00

3. **Recreation Program for Persons with a Disability:**

RH Mobility is currently working with the City of Richmond Hill’s Recreation Department to fund fitness equipment for those with a disability. By purchasing such equipment, it allows community residents with a disability the opportunity to properly exercise in a facility that they may not have access to otherwise, boosting their mental and physical health. RH Mobility also supports the City of Richmond Hill’s Summer Day Camp Inclusion Program and the Sledge Hockey Program for youth with disabilities. Funding assists with the training and support of staff for the inclusive day camp leaders as well as funding of sensory materials. This is extremely beneficial to those children with a spectrum of physical and mental disabilities.

   Request: $20,000.00

Total Request: $50,000.00
