**Subject:** City File: D03-20003 (0 Elgin Mills Road East)

Dear Sir,

I am a Richmond Hill resident and would like to express my opposition to the Proposed Draft Plan of Subdivision at 0 Elgin Mills Road East.

Such proposal comprised of over 500 units of mixed use of commercial/residential apartments/townhouses. If it were there now, one can imagine how busy/messy is the daily traffic driving in and out of the intersection of Bayview/Elgin Mills. In addition, another 300 to 500 vehicle-trips will be expected daily on the subject lands for commercial use. These would result in making air and noise pollution, creating traffic chaos, making it unsafe for children and women crossing the intersection, which is the main access for them to go to the Richmond Green Park.

My family has been living in this area for almost 10 years. We love the current condition of it. We stongly oppose to the said proposed development as it will jeopardize our current quite, green and peaceful environment.

Thank you very much.

Jacko CHAN
