Dear Mr. Kwan:

**Re: 9893 Leslie Street – Carefirst Seniors & Community Services Association site**

As per the resolution of Regional Council on February 27, 2020, Council has supported the request for conversion of this site from Employment to Employment/Institutional uses and exempted this site from any further process as part of the Regional Municipal Comprehensive Review (MCR). This means that any required planning applications can be initiated at the City of Richmond Hill at this time to facilitate a long term care facility and any decision is not required to await the completion of the Regional MCR. The Region is committed to providing timely responses to planning applications to advance this project as quickly as possible.
