Dear Madam/Sir

I refer to the application received under the planning act from Sabella Ridge Estates to build 28 storey rental apartment building consisting of 284 residential units on Part of Lots 53 and 54 of Plan 1931 known as 10684 and 10692 Yonge Street.

Me and my wife are owners of 3 creekview avenue, Richmond hill and wish to communicate our deep and sincere objection to the constructing of a 28 storey rental apartment building consisting of 284 residential units near my house.

This community was formed and developed as a single family community. Beg you not to destroy this community, please.

This is truly not acceptable.

If we are required to seek legal avenues to stop this application, request you to guide us how we can pursue this legally to stop this application being approved.

Many thanks and Kind Regards,

Asthagiri Krishnamani
