Subject: Sabella ridge estates / 28 storey rental

Hi David,

Hope you are well, recently we have heard a bad news about proposal of 28 storey rental apartment in Yonge street. According to their plan the entrance will be in Arten/ Creekview street which is hard to believe that such a narrow street can sustain traffic of 280 units. On the other hand who will be responsible for our property devaluation because of the profit of one developer family or company. We are paying thousand of dollars for our property taxes to live in this area, but due to this project you think it would be fair to pay such a high amount of taxes. We are strongly disagree about this project and want to escalate our complaint to related officials. Please advice us with this matter.

Kind Regards,

Reza Refghi
