Subject: Re: D01-2004 and D02-20010

I would like to give my letter of submission regarding this Rental Building Development on 10684 and 10692 Yonge Street . We are Richard and Adriana Rebellato and we live at 3 Vomano Street

I do not want such a high-density building to be built in my area.

Such a high complex should not be built in such a small space of land this is against building density.

This is a beautiful residential area that a development like this does not even fit in this area.

Town of Richmond Hill should not allow this?

I am totally against this we all pay such high taxes in this area I moved to this area because I liked the greenspace that is around my neighborhood and this will be ruined by such a high development, I want to keep the neighborhood quiet and safe and keep the beautiful greenspace that it has.

This development will affect the area immensely.

The area will be too congested. I do not want all traffic going on Vomano street.

I really think this should be reconsidered since there will not even be enough parking spaces for this complex because it sits on a waterbed so how can they dig?

This will not be a quiet residential area anymore it will be a very busy area with traffic.

I do not want this whole area full of High-Density Developments this is what I am totally against.

That is my opinion and I would like the councillors to please understand that these high-density developments have to be stopped in this area.

Thank you Adriana Rebellato very concerned resident in this area.

I wish to be notified of the passing or refusal of the proposed Official Plan Amendment or Zoning By-law Amendment. My address is 3 Vomano Street in Richmond Hill, Ontario L4C 0T9 905 884-9919 Adriana and Richard Rebellato.

I really oppose this application due to all the traffic that it will create on Oxford this will affect all the residents in the area it will be so noisy and disruptive this is a residential area, where we pay very high taxes to keep it a quiet neighborhood.

The value of my property will go down if this Amendment application is approved.

Please let me know how else I can voice my opinion so I can oppose this proposed official plan and Zoning bylaw Amendment.

Adriana Rebellato
