Subject: Objection to D01-20003 and D02-20009

Hello,

Please record my objection to the D01-20003 and D02-20009 applications to build a massive 11-storey condominium on Bayview Ave. in an area that is currently wetlands and other natural habitats on the Oak Ridges Moraine. I would like to be informed of anything related to this application. I also have some questions if you could please answer them.

1. The area is currently zoned Agricultural. What does that mean in terms of building on that wetland? What is currently allowed there?
2. Please provide the name of the companies behind 2747883 Ontario Inc. and 2753502 Ontario Inc.

Thank you,

Carol Davidson
