Subject: SRPRS.19.171 - Pedestrian Crossing Improvements on Clarissa- Residents Support

Good evening,

My husband and I are residents of 32 Clarissa Drive for almost 17 years, and I take this opportunity to express my thanks for the tremendous work you do on our behalf.

Unfortunately we are unable to attend the meeting, however my husband and I express strongly our support for a public safety initiative presented as Agenda item 11.18 at the meeting of Committee of the Whole on Wednesday, December 4, 2019.

Reasons -there is a significant increase in the traffic on Clarissa in the last 5/7 years. The traffic has notable increased since the new condo developments in the area. Also the pedestrian walk area would make a safer cross for everyone, however we see a major, major safety initiative for seniors and children.

We are in favour of the recommendation as per document presented:

Excerpt from the documentation - "

" Recommendation(s):

a) That the pavement markings, signage and crossing improvements recommended in staff report SRPRS.19.171 for Clarissa Drive (between Yonge Street and Weldrick Road East), be approved;"

Best regards,

Rodica and Andi Vlagioiu

Subject: Re: SRPRS.19.171 - Pedestrian Crossing Improvements on Clarissa- Residents Support

Good evening again,

I forgot to mention the other reason we are in favour of the initiative.

I personally, in the past helped a gentlemen with impaired vision to cross the street from the North side of Clarissa to the South of Clarissa where the pedestrian walk might be in the future.

I am certain many Clarissa residents as well as the neighbourhood residents visiting the plaza would greatly appreciate the initiative for a safety crossover.

Thank you again,

Rodica Vlagioiu
