Subject: Ref to : City file D01-20009 and D02-20018

to whom it may concern

hi

thank you for your notice of mentioned file in City Of Richmond hill, as a residence of Yonge and 16th area who will directly affected by this project I would Like to send my written disagreement of such complicated project. Beside the strong fact that this project would directly INVADE the privacy of my unit, the lot you mentioned in map is very narrow for such size of contraction and as per your last rejection on this project, it wont meet basic safety parameters. The upcoming traffic for these many units will make the already disaster area to even worst.

Also, May I please have the results of mentioned proposal send to me as soon as decision has be made?
