Subject: City Files: D01-20009 and D02-20018

This email is to advise you that I am opposed to the request made in the above-named files for the following reasons:

- height of buildings will obscure views and sunlight
- there is not enough green space or park land nearby to accommodate that many new households
- parking at Hillcrest Mall is already in short supply during holidays and when there is snow piled up
- traffic congestion in the area is already a problem
- I believe a corridor of high-rises along Yonge St will be an eye-sore and not be welcoming to the community
