Subject: sanctions against Perrelli

Re. Cilevitz reprimand change motion

I'm astounded that this is even being discussed and just reinforces the bullying behaviour of some councilors. In fact, I would suggest that Perrelli should be the named party, not Cilevitz.

Given Councilor Perrelli's many times of skirting ethics in the past and bullying behaviour patterns it seems to me that his sanctions to need to be increased because he seems not to get it. He needs to be reined in and taught manners in a way he understands. Sanction increases is one of those ways.

Look at all the signs he has put up with his name and picture taking up 90% of the sign and the important information part being less than 10% of the sign area. This visual pollution is just another example of bullying behaviour.

Sincerely

Otto Wevers
