Subject: Councillor Celevitz

As a resident in the ward represented by Councillor Celivitz, I would request that the penalty so wrongfully imposed on her not be increased. Karen Celevitz is the first councillor in this ward who has actually listened and helped the people she represents and I have lived in this ward for thirty five years.

If all councillors represented their wards in the manner Karen does, instead of bullying their colleagues, our town council would be a much better functioning entity.
