Subject: Application City File No: D01-19005/D02-19023

Hello there,

Being a resident at Oneida Crescent, I am not in support of these planning applications for reasons as follows:

- The building are in too much close proximity to the other buildings on Oneida Crescent. I will feel suffocated and there won't be any sunlight to the side of my building.
- Four Towers of 18-30 storeys already this area is congested with cars and a higher population. There is a school in that area and there are bounds to have accidents with the so many children.

***Twice in the last six months I almost got ran over by crossing the pedestrian crossing area even when it is less congested, so imagine when it will be far more congested.

- The congestion with the number of cars in the morning to get to work takes a toll on our time.
- This feels like living in a slum with the so many apartment buildings.

I am not in favour for four towers to be build each of 18-30 storesy. Possibly townhouses would be better for this area. Why increase the pollution when the community is living healthy and the green pastures are thriving. Remember there are kids that go to school – 1 child accident is something that City Planners should take into account. This area is densely residentially populated. The ask is to not cave in with the big housing corporation.

Thanks.

Amelia

Subject: Comments on Oneida Crescent

Hi there

I think the new building construction will have an impact on an already high traffic area. I almost gor run over 3 times this year even if there is a crosswalk. If we can have fewer buildings on the site and have townhouses instead. Noise pollution is everywhere and people working from home are and will complain.

Thanks

Amelia Aubeeluck
