Subject: Zoning on Oneida Crescent, file D01-190005 and D02-19023

Dear Mr Chan

Thank you for your recent letter regarding the community information meeting. While generally in favour of providing more housing in this case I am opposed until the safety issue can be addressed. The most recent condominium development on Oneida has significantly increased traffic levels causing long delays exiting at both ends of the crescent onto Red Maple. Add to this vehicles parked on the street with children running between them and then jaywalking to get to the school across the road and you have an accident waiting to happen. I would like to see this safety concern addressed before any new developments are approved. Thank you.

Regards,

Steve Basnett

11 Oneida Crescent

Unit 406

Richmond Hill ON
