Subject: Regards to application for official plan amendment and zoning

Dear Sir

I am the owner of one apt. in 55 Oneida Crescent, Richmond Hill.

I have to tell you that my family are not agree with this project building absolutely. There would be a lot of problem after complete as below:

1. The population of this area especially in red maple rd. is going too much.
2. In Oneida crescent,there are 6 towers and 2/3 more towers that is going to be finished very soon.
- 3 Thinking of how many people with their families living in a small area in future.
4. Right now we have problem of traffic to get out of Oneida crescent,especially in rush hours.
5. There is a school and community center and also retirement.So I am surprise of advisor and engineering in city ,how they will accept this proposition to build four towers with high rise buildings.
6. Right now without accepting this application the price of the [apts.in](#) building 55&65 decreased.
7. Unfortunately The Covid !9 did not allow to have a meeting about the matter but I hope the other owner send their opinions soon.
8. Since you are the Councillor,ward 6, I wish you will have opposition vote with this project other wise,we have to make a complain to the Ontario Government.
9. I am waiting for your decision and the resault of the city official decision to let our know.

Thanks
