Subject: Re: Proposed Development at Oneida Crescent - Council Public Meeting

Thank you Councillor Chan. I myself am against these developments especially when we haven't seen how not living under lockdown would impact the current traffic flow, with new buildings still being built and occupancy not having moved in. It's too much development in too short of a time. It would impact the safety of the schools and it would honestly not be the same area I happily moved into, an area where I am proud to raise my daughter in, an area I feel safe in. I would most likely consider moving if new buildings were added. And that's a little worrisome, as I can barely afford life in Richmond hill as is, yet we are established here for employment, schooling, community, and so much more.
