Subject: Hazelview Developments 11160 and 11172 Yonge Street

I have been informed of this development application of the 3 buildings with heights of 15, 18 and 35 storeys. I feel the density of this project proposal is not reasonable.

This is already a high density traffic zone area. There are already other developments not yet started that will not help. I disagree on this proposal please let me know my options?

Thank you

66 Brookside Rd Richmond Hill ON
