Subject: Regarding Agenda Item 14.1 under New Business, April 14/21

Dear Mr. Clerk:

I do not support Councillor Muench's motion titled, "Review of Farming and Agriculture in Richmond Hill."

This shameful motion isn't intended to 'review farming and agriculture' but rather to review and amend the Oak Ridges Moraine Conservation Act and Greenbelt. What the Councillor is really looking for is approval to convert environmentally protected lands to residential lands. Under the guise of asking the Province to study countryside lands, his intentions are clear: Open up the Oak Ridges Moraine Conservation Act and develop protected lands. I want our environmentally protected lands to remain intact, and am ashamed that this councillor uses devious ploys to further his personal gain.

Thank you for your consideration,

Sean Cisterna  
Richmond Hill Resident
