Hi dear responsible, With the construction of this large complex 45 storey, there will be major problems for the residents 9201 Yonge street. Especially the units that have a northern view.

1- Blinding the northern views of the units.

2- Creating more traffic and noises due to the round- the clock traffic of vehicles.

Therefore my family and I who live in the unit 2408 - 9201 Yonge street are opposed by the construction of this complex building.

Sincerely, Asadollah Massnavi.
