Subject: My input regarding councillor Perrelli's enviro day event

I would just like to provide my input regarding the upcoming discussion about who should fund this event.

When I saw that this event was taking place I emailed councillor Perrelli to ask about who was paying for this – especially since his vote, among others, were the reason the program was stopped in the first place.

He explained to me that this money would come from money allocated to each councillor to hold such events. Although I did not think such obvious self-promotion should be accomplished with tax payers money I accepted his response as honest.

Now that I have come to understand this was not quite the case and that he wants the citizens of Richmond Hill to pay for something he obviously was not in the position to offer.

While I would like to see the replacement blue box program be reinstated in the town, I do not see why we should be paying for an event that councillor Perrelli was using to market himself.

In my mind, this was an irresponsible and poorly planned personal promotion and he would like us to pay for his error in judgement.
