

Petition

To: The Town of Richmond Hill and the District of York Region

Reference: The Installation of 3 Speed Bumps or humps on Old Bayview Avenue. Between North Lake Road and Lake Wilcox Park North Entrance Turnabout.

Problem: Too many instances of trucks, cars and motorcycles racing around the blind corner of a densely pedestrian-populated roadway, accelerating and speeding up to 70, 80 Kilometers per hour. This section of road has essentially become a pedestrian mall used by walkers (many of them seniors), joggers, dog walkers, large family and tourist groups, cyclists, scooters, rollerbladers, skate boarders, baby carriages, wheelchairs and disability scooters. The Covid-19 social distancing ensures that the roadway is occupied by day and evenings by people who cannot socially distance on the sidewalk to and from the park. This is a recipe for disaster and must be addressed immediately. There is also the noise and air pollution of accelerating muscle cars and motorcycles. The whole situation is toxic.

Old Bayview Avenue Petitioners: We, the undersigned majority of residents of this stretch of Old Bayview Avenue respectfully request the immediate installation of said 3 speed bumps or humps.

Signed this Sept 9 of Aug 2020.
