Clerks Office.

Please arrange for the following to be placed on a slide to be presented as the final slide by me on October 27.

Thank You

Please confirm if and when this will be completed.

On the slide(s)

2) When will the project restart and when will the project be completed?

If the residents are still favorable, based on the return of the updated petition, the design will continue and negotiations with Region of York will be restarted. The earliest construction would start is 2023 if all requirements can be met including obtaining the necessary easements for the installation of the Trunk Sanitary Line on Yonge Street

to me

Good afternoon Paul

This is a local planning and project delivery matter. The Region's infrastructure is in place to support their work.

Wayne
