Subject: Re: Objection to the development of two high rise building on 0 John Birchall Road (north east of Leslie and Elgin Mills) D01-21008, D02-21016

Hello,

I'm writing to object to the proposed development of two high rise buildings on the corner of John Birchall Road and Leslie. The location currently houses many townhomes, semis and detached homes, with John Birchall being the main entrance to the community. There will be very high traffic to the area particularly the main entrance once the two condos are built. In addition to the potential traffic issue, the two buildings which will house a high population to the hood that will be very close to Richmond Green High School also cause potential concerns to safety issues to residences and the school. The community is currently already very congested with the existing residences. With the on going development along Leslie north of Birchall, the neighborhood will be very densely populated. Our existing residences definitely do not want the area to be overly populated while we are still waiting for all amenities such as parks and elementary school to be available.

Please acknowledge receipt of this objection and let me know if there is another proper channel to voice my concern.

Regards,

Sharon Hou
