Subject: D01-21008 and D02-21016

Hi there,

I am writing this letter because I am opposed to building 2 very high condos (27 and 31-story) in Leslie/John Brichall Rd.(Plan 65M-4668).

This 2 condo will have 650 unit coming. and it will make a big traffic issue. I don't want to waste time at the intersection of the community or get stuck here every time I enter and exit.

Also, the 650 unit are not 650 people, they are 650 families. This will increase a huge population, which will directly affect Richland's community facilities and the reduction of community safety.

Finally, I understand that the community needs to grow and the population needs to be increased, but I hope that the relevant departments can accept our opinions and maintain a medium density or lower than a 10 story building.

PS. if have any update about this plan please let me know.

Thanks.

Yidi Huang
