Subject: D01-21008 and D02-21016 Proposed Official Plan Amendment, Zoning By-law

Hi,

I received the Notice of Complete Application for the above noted development. I live along Bawden Drive and have concerns about this new development, given it includes 2 apartment buildings. My concerns include traffic impacts, the aesthetic, and the density of the development.

I have a few questions as follows

1. What is the the next Council Public Meeting for this development scheduled for?
2. What is the City's approval process?
3. Is there an opportunity to appeal to this OP and zoning bylaw amendment?
4. Is there any ongoing similar application along Leslie Avenue between Stouffville Road and Elgin Mills Road?
5. What is the approval timeline, assuming the City will approve.
6. Could the City please add me in your email list.

Thanks for your time.

Sammy
