Subject: Fwd: Objection to Files: D01-21008, D02-21016 located 0 John Birchall Road

Good Morning,

I'm Ye Fu, the resident of 23 Gerden Drive, Richmond Hill, ON L4S 0H2. I'm writing this email to object to files D01-21008, D02-21016, which is located 0 John Birchall Road and the applicant is Leslie Elgin Developments Inc.

Referring to the North Leslie Secondary Plan, this land is planned to be a medium/high Density Residential land, which is designated to be "townhouses, stacked townhouses, back to back townhouses, low-rise to mid-rise apartment buildings and other similar housing forms ...(Paragraph 9.6.2.3)". Obviously, 27 Storeys and 31 Storers buildings are completely departing from the plan and seem very absurd.

High Rise buildings are usually built in the city center with more dense populations and a more active economy. No such high-rise building has ever been built even in downtown Richmond Hill, along Yonge Street. Why will they appear in Rural Richmond Hill? These two high-rise buildings will cause very serious traffic congestion, community facilities shortage and safety issues. Please consider its feasibility very thoughtfully.

I would like to attend the Public meeting on Dec 1, 2021, 7:30pm. Please help me register for this meeting and kindly provide me with the information related to this matter. Thank you.

Regards

Ye Fu
