Subject: Two highrises proposed near Leslie and Elgin Mills in Richmond Hill

Hi,

My name is Ga-Hao and I am a resident on Bawden Drive. I am writing in regards to the two highrises proposed near Leslie and Elgin Mills. I think most people will agree that housing has become unaffordable and out of reach for many individuals and families in the area. Therefore I am an advocate for building the two highrises in the area in order to increase the supply of available housing units.

However, I do want to emphasize that with the increase in population density due to the high rises we will need additional public amenities such as parks and playgrounds in the area. Additionally, re-configuring John Birchall Road to reduce traffic congestion and car pollution from the high rises should be considered with the public. Thank you for your time.

Regards,

Ga-Hao
