Subject: Written correspondence regarding the 2 Condo Towers Development at 0 John Birchall Rd.

Hi Councillor Castro Liu,

Firstly thank you for creating a platform for us to vent our frustration regarding the Condo Development Proposal.

As the home owner of 6 Tyndall Ave. Richmond Hill we are vehemently against this proposal.

Instead approving the site for condo development we would highly appreciate it if the site is used to improve

the community amenities. Building 2 to 3 public tennis courts would be really good for the community.

Or building a strip mall where there is a day care center would highly help the working couples in the neighbourhood and areas around.

Building 2 high density high-rise condo towers in the low density neighbourhood would dramatically increase the security concern of this quiet neighbourhood, which means more police patrolling is needed. Currently we have no more than 200 units in the entire neighbourhood. Now adding 650 more units is just ignorant, which would have meant more than triple the size of the existing residents.

Thank you again for collecting our written correspondence on behalf of the residents here.

p.s. When is the ward 3 election? I would be more than happy to vote for Councillor Castro Liu to represent

our interest.

Cheers,

Yue & Jun

6 Tyndall Ave. Richmond Hill
