Subject: Opposing development at 0 John Birchall

Good morning,

I live in Richmond Hill near the proposed development of 2 new apartment towers at 0 John Birchall. Part of the reason I chose to move into this neighbourhood was that there were no high rises in sight and the city did not allow for anything greater than 10 storeys. I am greatly opposed to the proposed development and it would drastically lessen my views on this neighbourhood and city.

I urge those responsible for convening on this development application to vote against amending the by-law please.

Thanks,

Ben
