Subject: ONLINE VOTING

Good afternoon,

I support Councillor Chan's motion to include online voting for the October 2022 Municipal elections.

However, I think it important to continue to provide for in-person voting as well.

Further, most importantly, my support to online voting does not extend to online voter registration. I think it imperative to have potential voters present in person with proper identity documents to register for the voters list.

Regards,

M. Elena Smith
