Subject: Pickleball

My name is Cindy Ranieri and I live at 32, Sala Drive, Richmond hill Ont L4C 8C1, Canada.

I would like to request more indoor and outdoor pickle ball courts. I have been playing since 2015. I currently play once or twice a day five out of seven days a week the other two days I play three times a day. I travel to Stouffville, Etobicoke, Toronto, Newmarket, Aurora, Bradford and Scarborough. I should not have to leave my own community.

It keeps me fit and out of the medical sector. I am not interested in playing competitive Pickleball but I would enjoy being a spectator close to home. I have a girlfriend in Regina who plays Pickleball every day. She just recently started and has the option of travelling to eight different indoor platforms within a 10 minute drive of her house. She said there's five times as many outdoor facilities to use.

When I vacation, I always look for Pickleball as one of the recreational options offered.

Pickleball is such a fast growing sport, someone was desperate enough to line a pickleball court on our street. Dodging cars is dangerous though.

Please let me know the results of my request.
