Subject: against development at 9218 Yonge street

Please note that as a resident in the immediate neighbourhood, I am against this development. More importantly, I'm opposed to the number of stories for this proposed development. When did we become a city of skyscrapers? Where are the new parks in the area? Where are you building new children's playgrounds in the area? Yonge street in this intersection is becoming unbearable with traffic and yet only condos are being added. What is being done for already existing residents? And those with kids?

Please log my vote against this development.

Thank you,
Olga Kasjanova
