

Thank you for the opportunity to provide pricing for your home in North York.

*We propose to install a premium Lindab 150mm (6") half round steel gutter system with pressure fit EPDM gaskets at all seams. Pipes to be 75mm (3") matching steel. All formed components are 23 gauge pre-painted **Black #015** steel. Gutter is attached with external 25mm x 5mm steel hanging brackets spaced at **(26")** inches on center secured by #10 full thread coated screws. <http://europeangutters.ca/>*

- Install New Lindab system with **(1)** one piece formed corners that never leak.
- Large funnel outlets at **(5)** locations.
- Formed elbows and pipes finished inside and out to minimize blockages and icing.
- Counter flashing to prevent wicking back onto fascia included.
- Interior valley deflectors installed in **(1)** locations.
- Complete home and garage.
- Heavy gauge 0.032 leaf guard is extra to this quote \$ + HST

Total \$ plus 13% HST.

Sincerely,

Novak Kalezic

Heritage Permit Application – 37 Chao Crescent, Richmond Hill, ON, L4E0P4

11 March 2022

Description of work:

1. Install 6” half round black eavestroughs and downspouts at key areas to protect the roof, frieze and foundation as no eavestroughing was installed.
2. All components will come from the Heritage or historical lines to best suit the house, this includes:
 - a. Lindab European Galvanized Steel gutters in Black 015 colours in 6” Half round with round downspouts. <https://europeangutters.ca/gallery>
3. The above work, will enhance and protect the key features of the property by only being installed in key areas (see attached images), as well as repair the damage to the Frieze due to not having been properly painted and water shed put into to place.
