Subject: For the record - June 8, 2022

Hello Clerks Office,

I, Alex Yeung, would like to insert the following comments into the agenda.

Regarding the member motion pertaining to the Enviro Day Exemption for Local and Regional Councillor Perrelli, I urge council to vote against this motion. This was properly discussed, debated, and decided previously that RC Perrelli was to pay for his events out of his budget. I do not appreciate further attempts to relitigate or reverse this decision. RC Perrelli promised that no taxpayer dollars would be used for his event, and I expect him and Council to stick to that commitment.

Regarding the member motion pertaining to the Yonge and Bloomington Park, I urge council to conduct further cost-benefit analyses before starting down this path of writing a large cheque to a developer for a parcel of land that may be of limited utility to the majority of residents in Richmond Hill. The reserve fund is a precious resource that must be used wisely, and not on a whim.

Please list my name only, as I do not wish to have my address entered into the public record.

Best regards,  
Alex Yeung
