Subject: June 8 agenda public comments

To Whom It May Concern ,

As a long term resident of Richmond Hill (over 30 years), I cannot stand idly by without commenting on the absurdity of the following Council agenda motions:

1. Pass a motion to reconsider pursuant to Section 5.6.13 of the Procedure ByLaw; and 2. Rescind the SCRM.21.12 Resolution and declare that the SCRM.21.12 Resolution is invalid and ultra vires and of no force or effect whatsoever such that, more specifically, Regional and Local Councillor Perrelli is not required to provide any reimbursement to the City for the Enviro Day event; and 3. Direct City Staff administering Regional and Local Councillor Perrelli's Events Account that was wrongfully frozen at the direction of the former City Manager, Ms. Mary-Anne Dempster, to forthwith unfreeze that Events Account and restore to it \$55,709 for Regional and Local Councillor Perrelli's use.

These agenda items are not acceptable since Councillor Perrelli and Beros are the same two councillors who want council to buy land for a park in Richmond hill and their reason for this? - we have reserved funds.

I am adamantly opposed to these motions put forth by Council.
