Subject: Motion before Council Meeting on June 8th

I am disturbed about Councillor Beros's motion coming up for the June 8th meeting:

- Member Motion - Councillor Beros that Council reconsider their previous decision and declare that Councillor Perrelli is not required to provide any reimbursement of the \$139K for the Enviro Day event and direct staff to unfreeze his Events Account and restore to it \$56K for Perrelli's use

The abuse demonstrated with this misuse of funds is reprehensible and the previous decision is a fitting action to address it. A unilateral use of the City of Richmond Hill's fund cannot be tolerated, and any reversal of the previous decision would be a misuse of taxpayers money and an invitation to potential future unauthorized spending.

I strongly oppose this motion and respectfully request that Council defeat this motion.

Your truly,

Lucille Elwell
